The Schaefer 660 impresses with its innovation, design and sophistication. The two fold-out side balconies provide a 25% increase in cockpit entertainment floorspace, giving it the footprint of a much larger yacht and endless entertainment for the kids. Four staterooms along with three full heads and a private entrance to the master suite ensure great comfort for the owner and all guests. The modern interior design of this yacht gives a luxury hotel feel while on the water.

Creating more than 600 direct jobs in Brazil with a vertically integrated production process, Schaefer Yachts guarantees a timely delivery of your boat while attaining the highest quality standards.

With one of the biggest machining equipment of the Americas, Schaefer Yachts CNC guarantees the accuracy in the production of all parts involved in the project.

All parts are produced by a vacuum infusion process resulting in lightweight and sturdy vessels that provide a more comfortable, safe and economical journey.

With its own in-house woodwork, Schaefer Yachts found the solution to bring the finish and refinement desired in our boats.

5-AXIS CNC MACHINE

The new product development center is equipped with a 5-axis CNC, the only one in the Brazilian nautical market, it is able to machine molds up to 75 feet from a single block with the highest standards of quality, accuracy, and finish. A unique construction process, one of the most modern in the world, places Schaefer Yachts in the lead of the production of recreational boats in South America.

VACUUM INFUSION PROCESS

All parts of each vessel from 36 to 83 feet are produced by vacuum infusion system, resulting in lighter more economical and robust vessels, providing more comfort and safety for its navigation.
